Lucknow, India | +91 9161211377 | namanasthana208@gmail.com | [LinkedIn](#)

Growth marketer at a sports prediction market startup. Joined as an intern in 2024 and now run paid acquisition, affiliates, user activation and reporting. I work across the creative and the numbers, and I tend to be the one who finds out why a metric moved.

EXPERIENCE

Barter | DG3 (formerly DGBet) Jun 2024 – Present

Sports prediction market trading terminal built on Polymarket

Growth Associate Feb 2025 – Present

- **Paid acquisition:** Betting ads get rejected on most platforms, so I built a surrogate funnel: ads for a free prediction game, email capture, then a push to the trading platform once users were warm. Managed \$9.5K in spend across Meta, Reddit, YouTube, Telegram and crypto ad networks in 7 countries, for 2.1M+ impressions, 1,900+ signups and 1,850+ emails.
- Cut cost per signup from \$23.55 to \$6.10 (74%) by fixing the product alongside the ads. Watched Microsoft Clarity recordings to find where users dropped off, then worked with the tech team on each fix: the OTP flow took it to \$9, deep linking to \$7.90, and a deep linking correction to \$6.10.
- **Activation:** Led user activation, managing a team member. Built the onboarding email journey and ran offers to win back users who signed up but never traded. Monthly activation rate went from 20% to 35%, with email open rates above 25% and peaks of 35%.
- **Affiliates:** Ran the affiliate funnel end to end. Set up automated cold outreach on X through InboxApp, then personally took 1,000+ replies through negotiation and closing. After conversion, I managed the accounts: learned what each affiliate was struggling with and built assets around their audience and platform. Part of the founding team of a channel that brought in 1,600+ users and \$661K+ in trading volume.
- **Content and KOLs:** Planned the DG3 content calendar and ran KOL distribution: 38 quote-post placements, each with its own creator brief. Rebuilt the X content playbook based on X's open-sourced ranking algorithm.
- Hosted and produced live streams and podcasts through the FIFA World Cup 2026, Wimbledon 2026 and the Premier League, including host briefs and guest packs.
- **Analytics:** Built an automated Python reporting system (AI-assisted) for DG3's X pages with weekly dashboards, UTM attribution and target tracking. Set up GTM, GA4 and Clarity, wrote PostgreSQL queries to track signups by channel, and traced a UTM-stripping bug on the terminal back to the SPA router.

Marketing Intern Jun 2024 – Feb 2025

- Started a football meme page on Instagram as a top-of-funnel acquisition channel and ran all of it: strategy, creatives, posting. Monthly impressions went from 368K to 3.7M in four months; the best month reached 1.99M accounts and 461K interactions.
- Owned DGBet's football content on X, from strategy to copy to creatives. Monthly impressions grew from 875K to 6M in six months and followers from 110 to 5,000+.
- Ran the Euro 2024 and Wimbledon campaigns with contests across X, Discord and Telegram, and drove \$150K+ in betting volume in a single month.

The Indian Idiot | Content Creation Intern Feb 2023 – Apr 2024

- One of three interns reporting directly to the founder of a 1M+ follower Instagram community.
- Ideated and wrote 150+ posts that reached 100M+ accounts, working with 20+ brands including Netflix, Prime Video, Spotify, Flipkart and Indeed.
- Ran media campaigns from scratch for Masters' Union and ISBF, and went through 5,000+ user responses to build user-generated content.

EDUCATION

Bachelor of Commerce | National PG College 2021 – 2024

ISC (Class XII): 91% | ICSE (Class X): 92.6% | City Montessori School, Gomti Nagar 2019 – 2021
